

Finishing Touch (FT) Programme Outline and Registration

The Finishing Touch (FT) programme, administered by Dato' Kho Hui Meng Career Centre (DKHMCC), consists of a series of career preparation and enrichment workshops to prepare students for internships, job applications and necessary skills for future career success. As a graduation requirement, undergraduates are required to complete and achieve a PASS grade for all **seven compulsory workshops** in Year One and Year Two.

Freshmen are required to complete both FTW101 and FTW102 in Year One to be eligible to enrol for Year Two workshops (FTW201-205).

As students move on to Year Three and Year Four, optional workshops will be offered at the crucial job application stage in the senior SMU years. These optional workshops are topic-specific to help penultimate and graduating students gain practice and understanding of the selection process in job applications.

Course outlines and instructor profiles are available at **OASIS > Careers & Comm Service > The Finishing Touch** for students' purview before registering for the FT workshops.

Registration for the Year One FT Workshops

Successfully matriculated students will bid for their FT workshops via BOSS. Please refer to the Registrar's [BOSS Bidding information](#) for important pointers and schedule of the bidding rounds for Freshmen.

DKHMCC will also send information regarding registration for Year One FT workshops to you at your SMU email before the start of the bidding rounds. You are encouraged to plan your schedule and anticipate the assessment and course load for FT alongside your academic schedule effectively.

For queries pertaining to FT, please refer to its [FAQ](#) or email DKHMCC at finishingtouch@smu.edu.sg.
